Metering Solutions

“Helping utilities realize their true revenue”

In the present deregulated environment, utilities need to improve customer service and reduce their operating costs. Inventive Software Solutions (p) Ltd offers various metering Solutions with an interest to reduce the meter reading cost which forms a major part of the operating cost. Implementation of metering Solutions enables both utilities and their consumers with many technical and economical benefits.

EPMSINDIA.COM has been designed to collect, organize and relay the data collected in the energy meters. This data includes energy, electrical parameters, tamper details and load survey data. This data can be used for analysis and monitoring or Management of Electricity. When the system is expanded, accurate power consumption can be calculated to be applied to the progressive billing and hourly differentiated billing.

Consumer Perspective

- Creation of new residential culture through the introduction of the state-of-the-art system.
- Reduced customer complaints from meter reading error.
- Prevention of the crime disguising as a meter reader.
- Checking of the meter reading data from home over the Web service.

Benefits for Utility Companies

- Quick and accurate meter reading.
- Reduced Cost.
- Efficient meter reading management applying the various meter read data.
- Checking of the meter reading data over the web service.
